4245149

EXPORT OF QUARTZ CRYSTALS TO POLAND

The French Authorities have been asked to approve the export to Poland of 20 quartz crystals for radioelectrical use, representing a value of 177 528 francs, i.e. approximately \$ 360.

These quartz crystals which are covered by Item 1587 have a frequency of 31 250 kc ; they are destined for synchronizing and scanning generators of the Warsaw Television Broadcasting System.

The French delegation submit this small case under the special Polish Exception Procedure (Chapter D, paragraph 17 of COCOM Document N° 3620) and would be grateful for the views of member governments as early as possible.
